TARGET VIDEO NEWS

11/17/94

Mr. W:

I'm sending some articles from the 4th Decade journal. Please excuse the notes & underlinings; I initially assumed you received this kind of stuff on a regular basis. On the other hand, if you do already receive this sort of thing, let me know.

Speaking of which: do you have, or have access to videos on the assassination? Following is a list of tapes that I should be able to make copies of.

— JFK: The Case for Conspiracy. Robt. Groden. Excellent production (much clear footage & good interviews, ie:

the Willis family, etc.). I like this video, but I still don't trust Groden completely.

- The Second Gun, Ted Charach's excellent work on RFK assassination.

- Frontline: Who Was Lee Harvey Oswald? Interesting in that it presents some solid evidence that Ozzie was not lone gunmen, and includes report (and display) of photo showing L.H.O. & David Ferrie together in C.A.P.; but ultimately the program punks out & "conforms" ~~that~~ "official" version.

Sincerely,

John Petrella
